WORK EXPERIENCE

QA Engineer

Dec 2022 · Ukraine

Test Team Now · Quality Assurance & Quality Control

- ▶ Performed end-to-end manual QA testing for the Diya government web portal and mobile ecosystem (iOS/Android).
- ▶ Conducted critical Functional, Usability, UI/UX, Security, and Cross-Browser testing to strict government-grade quality standards.
- ▶ Analyzed technical software requirements and drafted detailed test documentation, defect logs, and reproduction steps in Jira and TestRail.

Technical Director & QA Engineer

Jan 2014 – Present · Ukraine

Iqip1 Private Company

- ▶ Managed full-cycle technical operations, web infrastructure, and quality control processes.
- ▶ Synthesized 10+ years of expert background in state radio frequency regulation to ensure software alignment with legal compliance, technical standards, and security audits.
- ▶ Authored and validated complex technical specifications alongside high-level stakeholders.
- ▶ Recruited QA/development team members, distributed sprints, and directed overall bug tracking and quality sign-offs.
